**SkillPath** is a newly established company based in Erbil, Iraq, specializing in general trading and professional safety training solutions. The company was founded with a clear vision to support organizations across multiple sectors by delivering reliable, efficient trading services alongside high-quality Health, Safety, Environment, and Quality (HSEQ) training programs. We are committed to helping our clients enhance operational performance while maintaining the highest standards of safety and compliance.

Our approach is built on professionalism, integrity, and a deep understanding of local and regional market requirements, combined with a strong alignment to international standards and best practices. By integrating practical expertise with client-focused solutions, SkillPath aims to add measurable value to our partners' operations, promote a strong safety culture, and contribute to sustainable, long-term business growth.

**Empowering** skills  
Shaping **futures.**

our general trading division provides dependable sourcing and supply of quality products, materials, and services through trusted partners and efficient supply chains. We are committed to consistency, transparency, and timely delivery, ensuring our clients receive value they can rely on. At SkillPath, we strive to build long-term partnerships by offering integrated solutions that enhance safety performance, operational efficiency, and sustainable growth, positioning us as a trusted partner in our clients' continued success.

In parallel, our safety training division focuses on developing workforce competence, promoting a strong safety culture, and reducing operational risks. SkillPath delivers practical, industry-relevant training programs designed to meet regulatory requirements and real-world operational challenges. Our courses are facilitated by qualified professionals using modern training methods and hands-on techniques to ensure effective knowledge transfer and measurable performance improvement for individuals and organizations alike.

## Vision

To be a trusted and leading provider of general trading solutions and professional HSE & Quality training, delivering sustainable excellence, operational reliability, and long-term client confidence.

## Mission

- We are committed to delivering integrated solutions that support our clients' operational success by:
- Providing world-class Health, Safety, Environment, and Quality (HSEQ) training alongside reliable and efficient general trading services that create measurable value.
- Supplying high-quality products, materials, and services through trusted sourcing and dependable supply chains, ensuring consistency, compliance, and on-time delivery.
- Promoting a strong safety culture and embedding HSEQ principles as a way of life across all trading and operational activities.
- Building a professional and motivating work environment that encourages career development, high performance, and job satisfaction.
- Serving our clients through highly qualified instructors, competent trading and operations teams, and fit-for-purpose equipment.

# Core Values

## **HSEQ at the Core**

Health, Safety, Environment, and Quality are not priorities — they are our foundation.

## **Integrity in Action**

We operate with transparency, accountability, and uncompromising ethical standards.

## **Compliance Without Compromise**

We meet and exceed legal, regulatory, and industry requirements in everything we do.

## **People Power Our Success**

Our people are our competitive advantage and the driving force behind our growth.

## **Built on Trust & Respect**

We promote collaboration, mutual respect, and teamwork across all levels.

## **Client-Driven Excellence**

We focus on long-term partnerships by delivering consistent, dependable, and value-driven solutions.

# Training Services

## First Aid

SkillPath offers Basic and Advanced First Aid courses designed to equip participants with essential emergency response skills. The Basic course focuses on immediate care for common injuries and medical incidents, while the Advanced course covers more complex emergencies and enhanced patient assessment. All training is delivered in line with internationally recognized standards through practical, hands-on instruction to ensure competence and confidence in critical situations.

## Firefighting

Firefighting Training programs are designed to provide participants with essential knowledge and practical skills to prevent, identify, and respond effectively to fire emergencies. The training covers fire hazards, fire prevention measures, proper use of firefighting equipment, and safe emergency response procedures. All courses are delivered in accordance with recognized international standards through hands-on, scenario-based training to ensure readiness and safe performance during fire incidents.

## Lifting

Lifting Training programs are designed to ensure safe and efficient lifting operations in the workplace. The training covers lifting principles, hazard identification, equipment inspection, load handling techniques, and compliance with safety procedures. Delivered in line with recognized international standards, the program combines practical instruction with real-world scenarios to enhance safety awareness, reduce risk, and promote safe lifting practices.

Our Services

# “Professional training solutions built on safety, competence, and international standards.”

## Road Safety

Road Safety Training is designed to enhance safety awareness and reduce risks for operations on highways and general roads. The training covers hazard identification, traffic risk management, safe vehicle operation, and emergency response procedures in accordance with HSE standards. Through practical guidance and scenario-based learning, participants gain the knowledge and skills to prevent accidents, ensure safety, and maintain compliance with road safety regulations.

Through practical guidance and scenario-based learning, participants gain the knowledge and skills to prevent accidents, ensure safety, and maintain compliance with road safety regulations.

## Scaffolding

Scaffolding Training programs are designed to ensure safe erection, inspection, use, and dismantling of scaffolding systems. The training covers hazard identification, load limits, access and fall protection requirements, and compliance with HSE regulations. Delivered in line with recognized international standards, the program combines theoretical knowledge with practical guidance to reduce risks and promote safe working at height.

## General HSE

General HSE Training programs are designed to raise safety awareness and promote safe working practices across all operational activities. The training covers HSE principles, hazard identification, risk assessment, safe work procedures, and emergency response. Delivered in accordance with recognized international standards, the courses support compliance, reduce workplace risks, and contribute to building a strong and sustainable safety culture.

Delivered in accordance with recognized international standards, the courses support compliance, reduce workplace risks, and contribute to building a strong and sustainable safety culture.

**The above programs can be customized to suit the trainee’s experience, and the client’s specific requirements.**

# Industrial Services

## Industrial Welding Services & Solutions

**SkillPath's Industrial Welding Services & Solutions** are designed to support industrial, construction, and maintenance operations by providing reliable welding equipment, materials, and technical support. We work closely with trusted suppliers and manufacturers to ensure all welding consumables and equipment meet relevant industry and safety standards, delivering consistent quality and dependable performance for a wide range of applications.

Our services are driven by a strong focus on quality, safety, and operational efficiency. By combining technical knowledge with a clear understanding of HSE requirements, SkillPath delivers welding solutions that help clients maintain high workmanship standards, reduce operational risks, and achieve reliable, long-term performance across their projects and facilities.

### Operational Excellence

Reliable industrial services focused on safety, quality, and efficient execution in line with industry standards.

### Integrated Solutions

Practical industrial solutions combining technical expertise with HSE best practices to meet operational needs.

### Sustainable Performance

Services designed to enhance productivity, reduce risk, and support long-term operational success.

## Civil Solutions

**SkillPath** provides reliable support for construction, infrastructure, and maintenance projects through the delivery of quality materials, services, and technical coordination. Our solutions are designed to meet project requirements while complying with applicable engineering, safety, and quality standards. By understanding site conditions and operational needs, we support efficient execution and consistent workmanship across civil works.

Our approach emphasizes safety, quality control, and timely delivery at every stage of the project. Through trusted sourcing, structured processes, and alignment with HSE best practices, SkillPath's Civil Solutions help minimize risks, improve project performance, and contribute to durable, long-term results for our clients' developments.

## Safety Tools and PPE Supply

**SkillPath** provides high-quality Safety Tools and PPE solutions to support safe and compliant working environments across industries. Our range includes protective clothing, head and eye protection, fall arrest equipment, and essential safety tools, all sourced from trusted manufacturers to meet recognized safety standards. By ensuring reliable supply, consistent product performance, and full alignment with HSE regulations, we help organizations safeguard their workforce, reduce workplace risks, and promote a strong culture of safety.

# Graphic Design Services

Our Graphic Design Solutions deliver visually compelling, brand-aligned designs that communicate your message effectively across all platforms. From logos, brochures, and marketing collateral to digital graphics, social media visuals, and UI elements, we combine creativity with strategic thinking to enhance brand identity and engagement. Using the latest design tools and trends, we focus on aesthetics, clarity, and impact, ensuring every visual element supports your business goals. Whether for print or digital media, our designs are crafted to captivate audiences, strengthen brand recognition, and drive results.

**“We turn brands into visual authorities”**
